6th International Euregio Intensive Care Symposium New Evidence in Sepsis

Saturday, 5th September 2015
9 am to 2.45 pm
SuperC in Aachen

Venue:

SuperC
RWTH Aachen
Templergraben 57, Aachen
GERMANY

Dear colleagues,

we are happy to invite you to our 6th International Euregio Intensive Care Symposium entitled „New Evidence in Sepsis“. The symposium will take place in the “SuperC” of the RWTH Aachen University on Saturday, 5th September 2015 in the very heart of the city of Aachen.

Our Euregional Intensive Care Symposium (EIS) is a traditional part of the interdisciplinary intensive care cooperation in the Euregio and gives you the opportunity to discuss recent studies with competent national and international experts in the field.

The exciting new publications and thus new insights in sepsis suggested to present new evidence and to discuss this evidence with you.

Furthermore, we are glad to present you data of studies in German intensive care units as well as international studies.

You will achieve valuable insights in actual data on the incidence of sepsis in Germany. Moreover, you may re-evaluate diagnosis of sepsis and the antiinfective therapy. Other data challenge the significance of dogmas like the early goal-directed therapy (EGDT) or the use of the central venous pressure (CVP) to guide volume resuscitation. A study of the German Sepnet will provide new knowledge on adjunctive therapy with selenium in sepsis. Finally, we will gain an update of hydrocortisone and talk about appropriate anticoagulation in sepsis.

We are happy to welcome you on behalf of the three departments in the Centre of Europe and to provide a clinical science platform for personal and scientific exchange.

Prof. Dr. G. Marx

Prof. P. Roekaerts

Dr. W. Boer

New Evidence in Sepsis

Program 5th September 2015

Presenter: G. Marx, Aachen

- 9:00 hrs **Opening**
G. Marx, Aachen
- W. Buhre, T. Schürholz
New Evidence in epidemiology, diagnosis and source control
- 9:15 - 9:35 hrs **Incidence of sepsis in Germany – results of the INSEP study**
G. Marx, Aachen
- 9:35 - 9:55 hrs **PCR-based diagnosis of sepsis**
T. Schürholz, Aachen
- 9:55 - 10:15 hrs **Individualized antiinfective strategies**
F. Taccone, Brussels
- 10:15 - 10:45 hrs Break
- W. Boer, J. Bickenbach
New Evidence in supportive therapy
- 10:45 - 11:05 hrs **Measuring lactate clearance in sepsis**
M. Fries, Limburg
- 11:05 - 11:25 hrs **On the value of EGDT**
U. Janssens, Eschweiler
- 11.25 - 11:45 hrs **Cardiac dysfunction**
W. Buhre, Maastricht
- 11:45 - 12:15 hrs Break
- G. Marx, P. Roekaerts
New Evidence in adjunctive therapy
- 12:15 - 12:35 hrs **Selenium**
F. Bloos, Jena
- 12:35 - 12:55 hrs **Update Hydrocortisone**
J. Briegel, München
- 12:55 - 13:15 hrs **Anticoagulation**
M. Lance, Maastricht
- 13:15 - 13:45 hrs **Closing remarks**
G. Marx, Aachen
P. Roekaerts, Maastricht

All talks will be held in english

Speakers and chairs

- PD Dr. Johannes Bickenbach
Klinik für Operative Intensivmedizin und Intermediate Care
Uniklinik RWTH Aachen
Aachen (D)
- Dr. Frank Bloos, PhD
Klinik für Anästhesiologie und Intensivmedizin
Universitätsklinikum Jena
Jena (D)
- Dr. Willem Boer
Dept. Anaesthesiology, Intensive Care and Emergency Medicine
Ziekenhuis Oost-Limburg
Genk (B)
- Prof. Dr. Josef Briegel
Klinik für Anaesthesiologie
LMU München
München (D)
- Prof. Dr. Wolfgang Buhre
Dept. of Anesthesiology and Pain Medicine
Maastricht Universitair Medisch Centrum
Maastricht (NL)
- PD Dr. Michael Fries
Abteilung für Anästhesie und operative Intensivmedizin
St. Vincenz Krankenhaus
Limburg (D)
- Prof. Dr. Uwe Janssens
Klinik für Innere Medizin und Internistische Intensivmedizin
St.-Antonius-Hospital
Eschweiler (D)
- Marcus D. Lance, MD PhD
